

# Australian Biofuels 2009

*An essential reference document for the Australian Biofuel industry*

---

**APAC biofuel consultants** launch another annual independent assessment and analysis of the Australian biofuel industry - **Australian Biofuels 2009**.

This Study will provide you with the most up-to- date information on developments in the ethanol and biodiesel industry in Australia.

**Australian Biofuels 2009** will also include a **special feature analysis on:**

- *Development of second generation feedstocks in Australia*
  - *Review of Life Cycle Analysis of biofuels in Australia*
- 

**You should purchase this study because....**

without this update, you will miss out on the latest outlook and developments in the Australian biofuel industry including:

- Outlook for Australia in the world biofuel market
  - Assessment and analysis of challenges currently facing the industry.
  - Impact of biofuels on Australia transport fuel balance
  - Strategies for future sustainability
  - Status of mandates and government policies
  - Ethanol industry production and forecast capacity to 2015
  - Biodiesel industry production and forecast capacity to 2015
  - Feedstock prices, margins, and economics
  - Key players and planned projects
  - Customer acceptance and distribution
  - Over 35 charts and tables
- 

**And are you ready....**

*with the necessary back-up data for an informed contribution to the Government's **Energy White Paper** and **Taxation** policy review.*

The **STUDY OUTLINE** is ATTACHED for further details.
