

Energy Quarterly

SEPTEMBER 2026

Follow the money

The cover features a dark blue background with a network of red lines connecting various currency symbols (Euro, Dollar, Yen) and a city skyline at the bottom.

EnergyQuarterly information

The EnergyQuarterly is an independent and comprehensive report on Australasian oil and gas production, reserves, prices and development projects. The report of approximately 180-page is published every three months, utilising EnergyQuest's proprietary analytical data bases and expertise.

Each quarter the report provides:

- Comprehensive commentary and analysis of current developments and issues in both global and Australian energy
- Australian oil, gas, and liquids **production** by basin/field and company, with analysis of developments
- **Reserves** estimates by product, basin/field and company, with maps.
- Oil and gas **resources** estimates
- Domestic gas and LNG price information
- Analysis of new **gas contracts**
- Australian **state** gas markets
- Electricity market developments
- Gas-use for power generation
- Company production by **region and field**
- Details of oil and gas **development projects**
- Major gas plants and pipelines
- **Papua New-Guinea, New Zealand and Timor Leste** oil and gas reserves, resources and production by company and field

The report is timely, produced within eight weeks of each quarter end, when company reports become available.

The report is used by companies for:

- Board and investor presentations
- Government communication
- Strategy development
- Market analysis

It is used by governments for:

- Timely statistics
- Analysing supply options
- Ministerial briefing
- Following company activities
- Policy development

It is used by investors and analysts for:

- Production monitoring
- Market analysis
- Earnings forecasting

Data from the report is regularly used by major companies in public presentations, as well as internally. Subscribers include Australian and state government agencies and a wide range of energy producers and energy buyers.

The report is **user-friendly**, with data provided in easy to read tables and Excel spreadsheet format. Charts and tables highlight recent changes.

The data is **rigorously cross-checked** against other sources.

An example of the report Table of Contents and the EnergyQuarterly Order Form are set out on the following pages.

If you are interested in the report, please return the Order Form to admin@energyquest.com.au, or we can provide a sample report for your review.

EnergyQuest retains the copyright to the report, and it cannot be used publicly, copied or distributed without EnergyQuest's permission. The EnergyQuest Standard Terms and Conditions apply, and are available on our website, or through this [link](#).

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'R. Wilkinson'.

Table of Contents

Preface	2
List of Tables	8
List of Figures.....	10
Key statistics	12
National production remains at seven-year low	12
1. Observations.....	14
Follow the money.....	14
Back to the future – when 15% was not enough for Western Australia	18
What sets the price of electricity	20
Growth in renewables is being outpaced by growth in energy demand globally	22
2. Energy prices.....	27
Global energy prices volatile	27
Australian wholesale gas prices higher qoq.....	29
Consumer gas prices up 5.3% qoq.....	29
East coast spot prices up on previous year	30
Realised LNG prices down in Q2 2026.....	32
Global prices	34
Global prices lower qoq	34
Oil prices enter a period of volatility	35
3. East coast gas market	36
Supply and demand	36
Gas consumption down in Q2 2026	36
East coast gas demand down	37
East coast gas supply lower.....	38
Total east coast storage inventory lower.....	38
Pipeline flows	39
Gas flows south from Queensland	39
Domestic contracts	41
4. East coast electricity market.....	44
Observations	44
Warmer weather, muted demand and lower prices	44
Consumer Energy Resources growing rapidly	46
Prices snapshot.....	46
Electricity Statement of Opportunities, and hope	46
The capacity pipeline is still growing	48
Grid-scale batteries were the dominant price-setters in Q2 2026.	49

An electricity snapshot – supply and demand.....	50
Electricity prices.....	51
Wholesale price variations	53
Regional price separation	54
High-price events: low wind high prices in SA	57
Price-setting	57
Price analysis	58
NEM generation	59
State generation	61
Maximum and minimum demands.....	61
Generation by fuel type	62
Gas-fired power generation remains under pressure for Q2 2026.....	62
Coal generation down in Q2 on volume, and market share down to 53%	63
VRE up in Q2 on volume; market share 36%	64
Hydro up in Q1 on volume, market share edged up to 5.3%	66
Interstate electricity flows	66
Gas generation share declines further into July 2026.....	66
5. Western Australia energy market.....	68
Gas demand decreases in Western Australia	68
WA gas consumption by sector.....	68
WA gas consumption by user.....	69
WA gas prices	70
WA's gas storage levels lower	71
WA domestic gas supply lower	72
Wholesale electricity market.....	73
6. Energy transition	74
Woodside lays down new rules.....	74
Offsets targeted in Safeguard review	74
Calls grow for overhaul of CIS.....	75
Another mega-hydrogen project dropped	75
Another crack at biofuels	76
7. Exploration.....	77
Big Bedout numbers back high hopes of Santos.....	77
Santos drilling again in Beetaloo	78
New positive results from Taroom.....	78
Can the drill bit get Beach out of a bind?	79
Exploration spend at 11-year high	80
Wells to watch	82

8. Politics and policy	83
A crack in the renewables wall?	83
Can there be a data centre boom without gas?	83
Opposition plan to boost gas	84
Other news	84
9. Companies.....	86
Woodside exits new energy	86
Santos' dividend encourages analysts	87
Market looks for a catalyst from Beach	88
10. Reserves and resources	89
Company news	89
Australian Proved plus Probable reserves – basis for reporting.....	89
Australian gas reserves	90
CSG reserves and resources.....	94
Australian reserves of oil and natural gas liquids	98
Australian resources of gas, oil, and natural gas liquids	100
New Zealand reserves and resources.....	103
Papua New Guinea and Timor-Leste reserves and resources.....	103
Geographical distribution of oil and gas	104
11. Gas markets and infrastructure	106
Falling demand takes pressure off infrastructure.....	106
Pipeline flows	109
Gas pipeline tariffs.....	112
Gas processing plants.....	113
12. LNG.....	115
National production still under pressure	115
Higher LNG prices arriving Q3 2026	117
Woodside, Santos poised for moves up the producers' table.....	118
LNG export markets	121
China importing less overall with higher cargoes from Australia and others.....	122
Japan imports down.....	123
Korean demand down, but demand for Australian cargoes remains high.....	124
Taiwan imports exposed to higher spot prices	125
Projects under development	126
Barossa-Darwin LNG overcomes slow start.....	126
Scarborough 98% complete	126
Producing projects.....	127
NWS slows decline	127

Gorgon achieves quarterly record	127
Wheatstone recovers from cyclone damage	128
Pluto readies for Scarborough start.....	128
Prelude offline	128
INPEX lifts guidance for Ichthys cargoes.....	129
GLNG cargoes decrease on lower third-party gas	129
QCLNG shipments improve.....	129
APLNG shipments edge higher	129
13. Australian conventional gas	131
Conventional gas at record low.....	131
East coast projects	132
Gippsland Basin	133
Otway Basin	134
Cooper Basin.....	134
Northern Territory projects	135
Western Australia projects	136
Top five domestic gas producers.....	138
14. Coal seam gas	141
CSG production decline continues	141
Drilling activity at highest point since 2019.....	143
LNG pipeline flows decrease	144
APLNG lifts spending to counter field decline	145
GLNG cuts annual target to 5.6 Mt	146
QCLNG shipments increase	147
Other projects	148
Arrow commits to another 143 wells	148
Senex building slowly	148
Comet Ridge eyes FID	148
Narrabri remains stalled.....	149
15. Natural gas	150
National gas production at five-year low	150
Rare good news from Waitsia in WA domestic gas	154
Shell tops east coast producers.....	155
16. Oil and liquids	156
Oil self-sufficiency a distant dream	156
Structural decline across industry	157
Producing projects summary.....	159
Condensate production downturn	160

LPG production steady	163
Total oil and NGLs remain near eight-year low	165
17. Australian petroleum production	169
National output set to recover	169
Change ahead in three-way battle	171
18. New Zealand	174
Offshore permit awarded to SA-based explorer	174
19. Timor-Leste	177
Oil project races towards FID.....	177
20. Papua New Guinea	178
Papua LNG reshuffle?.....	178
Data sources and definitions	181
Definitions.....	181
Abbreviations	182
Conversion factors and assumptions	185
About EnergyQuest	186
Our history.....	186
What we do.....	186
Our unique approach... ..	186
Our capabilities... ..	186
EnergyQuest Team	187
EnergyQuest standard terms and conditions	188

List of Tables

Table 1 Australian petroleum production by product	13
Table 2 International energy prices	27
Table 3 East coast average spot price	30
Table 4 Gas price realisations.....	33
Table 5 East coast gas market snapshot	36
Table 6 Estimated east coast gas consumption for power and other uses (PJ) by quarter	37
Table 7 Estimated east coast gas consumption for power and other uses (PJ) by year	37
Table 8 East coast gas in storage	38
Table 9 East coast net gas flows	41
Table 10 East coast uncontracted domestic gas.....	42
Table 11 East coast domestic gas contracts.....	43
Table 12 NEM average wholesale electricity prices	52
Table 13 NEM power generation by fuel type.....	60
